LES MILLS Virtual™ APP AV update

Late in 2018 Apple introduced the new iPad Pro range (11 inch and new 12.9 inch models)
Both iPad models use a new adapter and charge lead port being USB-C connectors
It is now possible with both of these models to hardwire the internet as an alternative to WIFI connectivity.
To do this two adapters are required.

USB-C to DIGITAL AV MULTIPORT ADAPTER   **APPLE USB ETHERNET ADAPTER**

ETHERNET USB PLUG
CONNECTS TO MULTIPORT
